

## SHADE MIX

For Full Shade Lawns

Planting the right seed is the most important thing you can do for your lawn and the quality of a lawn starts with its roots.

The Rebels® Brand Extended Root seed seedlings grow up to 40% more roots\* at deeper depths. The Rebels® Brand deeper, denser root system improves nutrient uptake; maximizes drought resistance and enhances a lawn's ability to thrive under shade.

Enjoy a thick, beautiful, dark green lawn that stays alive and healthy even in the driest, hottest summer conditions with The Rebels® Brand Premium Grass Seed.

Better Seed, Better Roots, Better Lawn!
